### Dream Incubator Launches New Practice “Technology & Amplify” to Support Business Value Creation and Amplification through Technology

Dream Incubator Inc. (headquartered in Chiyoda-ku, Tokyo; Representative Director & COO: Takayuki Miyake; hereinafter “DI”) has been committed to business creation and business production for over 20 years since its inception. In recent years, many companies have placed “innovation” and “new business creation” as key management agendas, promoting initiatives aimed at generating greater societal impact.

In this evolving landscape, DI has introduced the new practice “Technology & Amplify” (T&A) to provide even more comprehensive and far-reaching support for clients in creating impact, as well as generating and amplifying business value.

This practice is positioned as a new function within Division II, whose primary mission is to realize and amplify value for clients. With this structure, in addition to existing strategic consulting services, a range of services related to technology and digital value amplification can now be provided.

## ■ Moving from the Era of “Innovation” to “Amplify”

T&A leverages the power of technology to contribute to the amplification of business value for client companies.

# Technology & Amplify

---

From value creation to value realization, and value **amplification**  
DI is fully focused on business value amplification through technology  
in close collaboration with clients

## ■ Services Provided by T&A

In addition to short-term support, we provide end-to-end (E2E) assistance for medium to long-term value amplification.
